HISTORY

The Lower Shore LGBTQ Coalition was established in May 2013 by several local service agency workers and Salisbury University students after attending the Annual Conference, “Issues Impacting Mental Health of the LGBT Population”. The conference created an overwhelming awareness regarding the lack of resources and support on the Lower Shore of Maryland and the need to address this concern.

Our primary goal is to support LGBTQ youth and young adults by reducing intolerance and enhancing acceptance.

MISSION STATEMENT

The Lower Shore Lesbian, Gay, Bisexual, Transgender, Queer/Questioning Coalition seeks to improve and preserve the well-being of youth and young adults through support, education and advocacy.

MEETINGS

The Lower Shore LGBTQ Coalition meets on the third Tuesday each month.

COALITION MEMBERS

The Lower Shore LGBTQ Coalition includes individuals from local Core Service Agencies, Health Departments, Behavioral Health Agencies, Staff and Students from local colleges and universities, Faith Based Communities, and other community members who support our mission.

We are comprised of multi-cultural and diverse backgrounds including age, gender, sexual orientation, race, ethnicity and religion.

The Coalition welcomes new members to join our efforts to advocate, educate, and support the youth and young adults in Wicomico, Worcester and Somerset counties in the state of Maryland.
